TENTH Annual Catalogue and Price List of the

SPRINGDALE NURSERIES

A. S. Bassett & Son, Props

GROWERS OF

Fruit, Ornamental & Shade Trees

Evergreens, Vines, Roses, Etc.

On Gainesville and Pilot Point Road, Eight and One-half Miles Southeast from

GAINESVILLE, TEX.
To our Patrons

We thank you for your very liberal patronage of the past, and it shall be our highest aim to merit a continuance of the same.

All we ask is that you give our trees a trial. Use this catalogue and be your own agent. We do not believe in "tree agents," as every man can be his own agent and order what he wants.

We prefer to sell direct to the grower, and could give numerous testimonials from our customers showing satisfaction in every respect.

We prefer to sell tested varieties of fruits that everyone can afford to buy rather than novelties with high-sounding names and higher prices, and usually proving worthless. Beware of the so-called "whole root" trees: they are the worst fraud ever perpetrated on a confiding public.

We avoid extravagant descriptions, knowing full well that the growth of the tree and size of fruit depends largely on the soil and attention given it rather than on variety.

We cannot prevent drouths, severe winters, insects, rabbits, etc., hence we never insure trees to live after leaving our possession. But we do deliver good trees true to name in good order.

We propagate principally tested fruits, cutting buds and cions from our own bearing trees.

Any man owning a small piece of land can have fruit in abundance if he only has the will.

We have a number of varieties not included in this pamphlet. Correspondence solicited. Send for price list: it costs you nothing and may save you money. Address

A. S. BASSETT & SON, (P. O. Box 89) Gainesville, Texas.
SPECIAL NOTICE — We never substitute unless so ordered; but customers will find it to their interest to leave the selection in part to us; in case we should be out of varieties ordered, when we might substitute varieties equally as good or better. The greatest care is taken not to send out anything that is not true to name, holding ourselves ready to replace or refund, upon proof, equal to the amount of first cost of trees, etc., that prove untrue, but to no greater amount or extent. All claims for loss or damage must be made on receipt of goods. All trees will be forwarded by express (unless otherwise ordered), as it is much safer than by freight.

TERMS — Our terms are strictly cash. It will be readily seen that at our prices we cannot afford to take any risks. Special pains are taken to pack lightly, but we pack sufficient to insure safe delivery. No extra charge for packing.

REMITTANCE should be made by draft, postoffice money order or registered letter. Remittances in any other way entirely at sender’s risk. Trees to be sent C. O. D. must have one-half of amount with order.

MISCELLANEOUS — Prices given are for delivery at nursery, Gainesville or express office. A printed copy of directions on transplanting will accompany each bill of trees. Fifty trees or plants at 100 rates, 500 at 1,000 rates. The best time to set out fruit trees is in the fall and early winter, if ground is in good condition; evergreens, roses and shrubs in February or March.

AS TO OUR RESPONSIBILITY we refer you to any business house of Gainesville or to many customers. We established ourselves in 1884, and have since been doing business at the same place.
